PBIS Focus of the Week Whole School Expectations

Dear Parents/ Carers,

Gospel Summary

This Sunday's Gospel, Lk 23: 35-43, brings us to the scene of the crucifixion. Jesus, on his own cross, is flanked by thieves on either side. One of the thieves jeers and taunts Jesus calling him a king and wondering why a king cannot save himself and them as well. Jesus responds telling the thief that his royalty is not like that of earthly kingdoms. He has no material wealth or armies. The second thief asks Jesus to remember him when he comes into his kingdom. We know today that he is with Jesus in heaven.

Reflection for Families

Today's children are not considered outcasts, but if you ask most children, they'll tell you they don't think adults really value their opinion. Jesus always reached out to the people that society generally found unimportant and that is a good thing for us to remember as parents. Even while he hung on the cross, Jesus preached the Good News to the criminals hanging beside him. Sometimes we find ourselves living, witnessing, and teaching the Gospel message to our children, even when the majority view is different. Jesus' words in today's Gospel gives us the courage to share our faith with our children even when society doesn't count their input for much and even when the Gospel message is not the majority viewpoint.

CHILDREN'S CHATTER MATTERS

Focus: Using longer and more complex sentences

Modelling and recasting

Modelling and recasting are natural strategies that parents and teachers use as children are learning language. Using these strategies in a more structured way helps children learn the language rules they need to use language appropriately across a variety of situations. These strategies help a child focus on the rules they need to learn. When a child makes an error, the child hears the correct use of language and over time will master it by themselves.

Modelling - providing a good model all the time requires you to use:

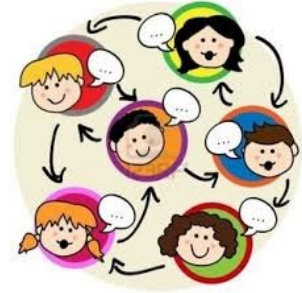

An unhurried speech rate

clear speech

short sentences

appropriate vocabulary

more repetition and re-stating than you would use if you were talking to another.

Recasting – repeat a sentence that corrects an error the child has made or expands the sentence used. The key to recasting is that it immediately follows the child's sentence and it maintains the meaning of the sentence. Recasting sentences usually occurs without actually correcting the child, that is, you don't actually need to make the child repeat the corrected sentences. The main idea is to 'feed' the correct form back to the child to let them hear it and this should occur naturally as part of conversation. Good recasting occurs without overt criticism, without interrupting the flow of communication and without getting in the way or listening. When you notice you have 'recasted' remember to do it again for the same structure 2 or 3 times later in the same day.

RUBBISH FREE LUNCH

Next Thursday, the 21st of November, our school is having a rubbish free lunch day. At the end of the day, the amount of rubbish in your classroom bins will be counted and the classroom with the least amount of rubbish will get a free icy pole on Friday.

We send our best wishes to
